Project Name	Rising Water-ML Flood Prediction System
Maximum Marks	3 Marks

Problem Statements (Customer Problem Statements)

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A resident living in a flood-prone area.	Know if a flood may happen	I do not get early flood warnings.	There is no easy way to predict floods.	Worried about my family's safety.
PS-2	A disaster management officer.	Predict floods early.	It is hard to analyze weather data manually.	There is a lot of rainfall data to check.	Concerned about protecting people.
PS-3	A local government officer.	Reduce flood damage.	There is no accurate prediction system.	Current methods are slow and less reliable.	Responsible for public safety.
