

Project Demo Planning

Date	02 July 2026
Team ID	
Project Name	Rising Water-ML Flood Prediction System
Maximum Marks	1 Mark

Project Demo Planning

Plan the project demonstration by listing the demo sections, duration, and responsible member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement.	2	Chandeeswari Mothukoori
2	Dataset & Model	Explain the dataset, preprocessing steps, and machine learning model used.	3	Chandeeswari Mothukoori
3	Web Application Demo	Demonstrate the Flask application and user input form.	3	Chandeeswari Mothukoori
4	Flood Prediction	Show live prediction results using sample weather and rainfall data.	2	Chandeeswari Mothukoori
5	Future Scope	Explain future enhancements and scalability of the project.	1	Chandeeswari Mothukoori
6	Conclusion	Summarize the project and answer questions.	1	Chandeeswari Mothukoori

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for early flood prediction and project objectives.
2	Solution Overview	Describe the dataset, preprocessing, XGBoost model, and Flask application.
3	Live Feature Demonstration	Enter sample weather and rainfall values and display the prediction result.
4	Q&A Session	Answer questions and discuss future improvements.
